

## **Bearings Ducati wide case engine 239/250/350/450 cc.**

Note: all suffixes are SKF but any decent bearing brand with similar properties will do

1x 6306 NR (groove and ring) (crankshaft clutch side)

1x 6206 or 6306 (pre-/post modified, depending on year; crankshaft distribution side)

1x 6204 2RS1 C3 (gearbox; remove inner rubber seal)

1x 6204 C3 (gearbox)

1x 6203 2RS1 C3 (gearbox; remove inner rubber seal)

1x 6203 C3 (gearbox)

1x 6203 2RS1 C3 (clutch cover; remove inner rubber seal)

2x 6202 C3 (camshaft)

2x 16004 (clutch)

1x 1202 ETN9 (plastic snap cage; upper bevel shaft)

2x 7202B ETN9 (plastic snap cage; lower bevel shaft)

1x oil seal 15 x 30 x 7 (ignition shaft)

Viton (heat-resistant) O-rings on bevel tower, selector drum, cylinder oil passage, kickstart shaft, rev counter drive

Specially made seals are available for the clutch actuation pin in front of the chain sprocket.

Degrease and smear secondary gearbox shaft with Hylomar or similar liquid gasket (no silicone!) before fitting in sprocket bearing.

## **Wheel bearings:**

2x 6202 2RS1 C3 (qty. per single hub)

1x 6004 2RS1 C3 (cushdrive)

1x oil seal ring 25 x 42 x 6 (cushdrive)
